If you want to have a different holiday with several entertainments, Isfahan is the best choice. Isfahan is the most famous city in Iran with hospitable people. You will enjoy watching the sunrise and the sunset on your way to Imam Square or while walking on Sioseh Pol Bridge on Zayanderud. The midday and midnight of these places are also special attractions of Isfahan .Imam square is located at the center of Isfahan and is the most important historical site of Isfahan. There are many places around this square that makes "it" a real paradise. Imam and Sheikh Lotfollah mosque are located around this square. Near this mosque there is the oldest and biggest bazzar of Asia. You should also have a plan to visit Menar Jonban. When we shake one part of this building, another part starts moving. Honestly, scientists couldn't still understand how Iranian made this unusual place. This place is the best site to protect the idea that Iran was a scientific country from the ancient times up to now. Bird Garden is another real nice paradise in Isfahan. It has many birds from different countries which make it an international garden. Travel to Isfahan if you want to spend a day in a place with several wonders.
